

Novelties 2021/2022

Dear friends of ENGEL!

This year again, there's lots of news from us for you. We are so happy to introduce our much loved baby- and children products, made from the beautiful combination of merinowool and silk, in two new colours, copper and olive. Furthermore, we added the longsleeved baby bodies, with the convenient press-studs on the side, in the already established colours light grey mélange, navy blue and natural (printed).

New to the product line are playful baby tunics, cute baby shirts with button tabs and front pockets as well as our new double-layered baby hats. For colder days, you will now have the chance to experience our fluffy and soft fleece clothing, made from 100% merino wool, in two new and fashionable colours, reed mélange and cinnamon mélange.

There is also something happening for the adults. Ladies' and men's underwear is now available in our two new and very trendy colours

copper and olive. And to our cozy soft fleece products for the outdoors we added the colour black mélange for the ladies' jacket.

The waisted ladies' and men's jackets will be from now accompanied by the new colour reed mélange.

Right in time for autumn season, we are starting a new recycling line. We are giving cutting leftovers a new life as comfortably warm Troyer jumpers made from 80% merino wool and 20% silk. Going by the name „Reborn by Engel“, these beautiful half zip sweaters will be available for children and adults. Due to the diverse mix of fabrics, the colours pebble and ocean differ in hues and nuances and make each piece a unique and beautiful item.

We hope you enjoy our new products as much as we do.
Your Engel company

Underwear and clothing in natural fibres.

Reborn by Engel

Precious to
the last fibre

Reborn by Engel

Fluffy warm and comfortable

During the cutting of our fabrics, it is hard to avoid leftovers of fabric. Because these remains are precious natural products, we turn them in a biological recycling process into new yarn.

With this yarn, we produce comfortably soft troyer style jumpers, of 80% merino wool and 20% silk, for children and adults. Knitted in half cardigan stitch, those troyers are not only fluffy and warm but also timeless and sophisticated.

Each piece an individual

The troyers are available in two different colours, dyed in the colour ocean and undyed in pebble. Due to the addition of different coloured fabrics during the recycling procedure, the colours distinguish in nuances and make each troyer one of a kind.
