

ENGEL

New 2025

Naturkleidung – Made in Germany

We present ...

... a new type of fabric!

A popular wish has become reality:
Virgin wool/silk now also in cosy interlock quality!

Interlock	04
Babies	24
Children	34
Women	42
Unisex	50
Home	54

This symbol stands for our new material quality: a velvety soft, strong and cuddly premium texture. Virgin wool/silk in perfect form. Robust, sustainable and keeping its shape.

unique
by
nature

Try finding that elsewhere: Our tried-and-tested combination of virgin wool and silk – now also in interlock quality. The new material is as unique as the promise it makes: naturalness that lasts. On your skin. In your head. In the way you feel.

You can feel it immediately; this fabric is different. Our new interlock combines the best of two natural fibres – 70% virgin wool, 30% silk – to create a quality that you won't find anywhere else.

No synthetic fibres, no compromises. But with substance: the double-faced knit provides more density, more shape, more durability. It drapes beautifully, hugs the body perfectly and is ideal for layering. Above all, however, it is cosy and soft – perfect for sensitive skin and wearing it feels great. A particularly high-quality material for clothing that doesn't think in terms of seasons.

Of course, what makes us special also applies to the new quality: made in Germany, GOTS-certified, consistently natural – from the thread to the last stitch.

Interlock is not just a new line for ENGEL. It is a statement. For people who are looking for products that are unique in every respect.

A close-up photograph of a baby's hand holding a piece of brown fabric. The baby's hand is in the foreground, with fingers wrapped around the fabric. The fabric is a textured, interlock knit material. In the background, another hand is visible, also holding the fabric. The overall scene is warm and intimate, emphasizing the softness and quality of the fabric.

We feel you — you feel it

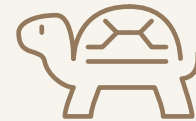

We listened: because you kept asking for a denser and thicker fabric quality, virgin wool/silk is now also available in interlock — high quality, soft, keeping its shape and completely comfortable.

Sounds good? Feels even better. A fabric that conveys pure cosiness: Gentle, smooth and incredibly soft on the skin, yet stable and durable. It fits snugly without wearing out, keeps you warm without being bulky and drapes naturally without appearing transparent.

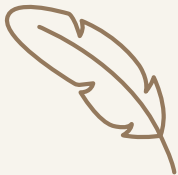

Ideal for babies and children

Soft, skin-friendly, without irritating seams – the perfect quality for delicate skin.

Robust and durable

Despite its soft feel, interlock is resilient and durable. A durable textile – in line with the philosophy of sustainable clothing.

Noticeably soft and smooth

Interlock fabrics are knitted particularly finely – the result is a smooth, closed surface that feels pleasantly soft against the skin. Ideal and comfortable for sensitive skin.

Great shape stability

Thanks to the special knitting technique, interlock is stretchy yet retains its shape. The garment keeps its shape – even after frequent washing and wearing.

Warming comfort

Interlock is denser than fine rib and therefore slightly insulating. Perfect for cooler days – without weighing you down.

*It's just me,
myself, and I*

Our Interlock Premium products can be easily recognised by the sewn-on logo.

Our children's sweatshirt: loose cut and fit: perfect wearing comfort, with neckband and classic quilted triangle.

*because
I'm happy*

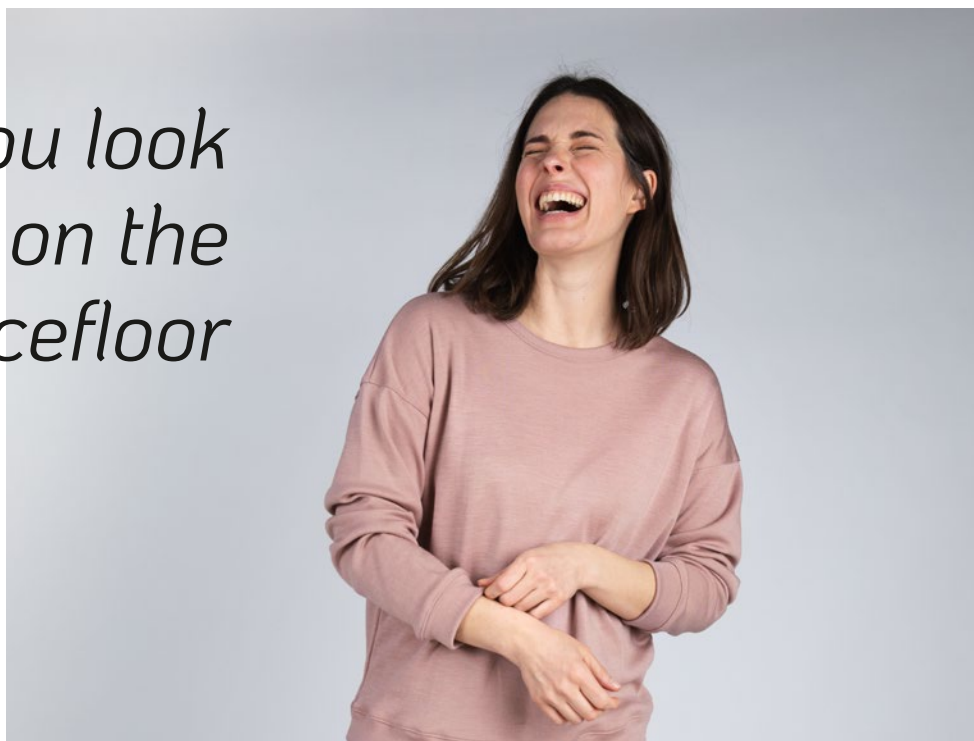

*The times they
are a-changin'*

*New in three timeless colours:
sand, dusty rose and navy. Natural,
calm, easy to combine – perfect
for any wardrobe.*

*I bet you look
good on the
dancefloor*

*Give up yourself
unto the moment,
the time is now*

*Each natural olive wood button is
unique – with a warm feel, lively grain
and natural charm.*

*Come
as you are*

*Home is wherever
I'm with you*

*I've got you
under my skin*

Our hooded jacket is the perfect companion for a sporty, casual look. It greatly combines comfort and style. And the best thing is that the special insert makes it ideal for wearing during pregnancy and when carrying a baby. And thanks to the elastic cord in the waistband, the jacket can be individually adjusted in width.

The production of our clothing creates unavoidable fabric waste – too good to throw away, we think. That's why we give them a second life: as lovingly crafted plants that not only decorate rooms, but also show our appreciation for materials, nature and cycles. Natural. Beautiful. Sustainable.
